PROFILE

Third-year B.Eng in Cybersecurity & Cloud Computing at NTU, Iraq, working part-time in IT at TAQA. I've trained machine learning models, built a ransomware detector from scratch, and shipped a multi-agent IDE written in Rust. Away from the editor I run a home server with Jellyfin, Pi-hole, and Tailscale: my own little cloud.

SELECTED WORK

Athenas Core — desktop IDE for parallel AI agents

Rust / Tauri 2 / Dioxus / MCP

Parallel AI agents analyse, review and reason about code in dedicated workspaces, with multi-provider LLM support.

`914 tests in CI` `9 releases` `166 IPC commands`

E-Commerce — full store, deployed live

Next.js 16 / TypeScript / PostgreSQL / Prisma

Catalog, cart, checkout, order management and an admin dashboard. Deployed live and taking orders.

Social — real-time social platform

React 19 / socket.io / Express / Prisma

Posts, feeds, profiles, notifications and direct messages over WebSockets.

Football Predictor — XGBoost match model

Python / XGBoost

Model on pre-match ELO, form and head-to-head features only: 52.8% accuracy on 2,892 held-out matches, against a 45.2% always-home baseline. Live ELO rankings.

`52.8% held-out accuracy` `live ELO rankings`

CashPilot — personal finance dashboard

React 19 / Express 5 / Prisma / PostgreSQL

Accounts, transactions, budgets and savings goals in one dashboard.

OsSecurity — ransomware detector

OS-level monitoring

Detects ransomware at the OS level with real-time encryption alerts.

PriceHawk — cross-store price tracker

Amazon / Walmart / Target / Best Buy / eBay

Price tracking across Amazon, Walmart, Target, Best Buy and eBay, with history charts and price alerts. Deployed live.

SKILLS

Frontend
Next.js · React · TypeScript · Tailwind

Backend
Node.js · Express · PostgreSQL · Prisma

AI / systems
Python · XGBoost · Rust · Tauri

Infrastructure
Docker · Tailscale · Pi-hole · Jellyfin

HOMELAB — MY OWN LITTLE CLOUD

Jellyfin
Self-hosted media server, streaming with zero subscriptions — running.

Pi-hole
Network-wide DNS ad blocker — running.

Tailscale
Mesh VPN, secure access from anywhere — running.

EDUCATION & WORK

B.Eng, Cybersecurity & Cloud Computing

NTU, Iraq

Third year. Awarded by the university president for academic work.

Part-time IT — TAQA

Weekdays

IT support at one of the largest companies in Iraq.

STATUS

Open to internships & junior roles. Based in Iraq, working worldwide.
